

# 300XL HIGH DENSITY COMPACTION EXTRUDER

DICOM LIMITED IS THE UK'S LEADING MANUFACTURER AND SUPPLIER OF WASTE COMPACTORS AND BALING EQUIPMENT.

**DICOM**

Waste material is held tightly compressed while passing through the "S-Curve" causing it to lose virtually all its memory. Cans and plastic bottles are flattened, and wet waste has a very high percentage of liquid removed. This exclusive design then discharges a densely compacted log of refuse into any size and type of container.

**SAFETY :**

All Dicom's products are designed and manufactured with operator safety our highest priority.

Each compactor comes fully compliant to all current Safety Standards and CE Marked.

During installation full safety and certified operator training is provided by our highly experienced installation and service engineers.

Equipment is supplied with the following standard safety features :

- Emergency Stop
- 24 Volt controls
- Dual safety switches
- Dual channel safety relays
- Operator manuals supplied

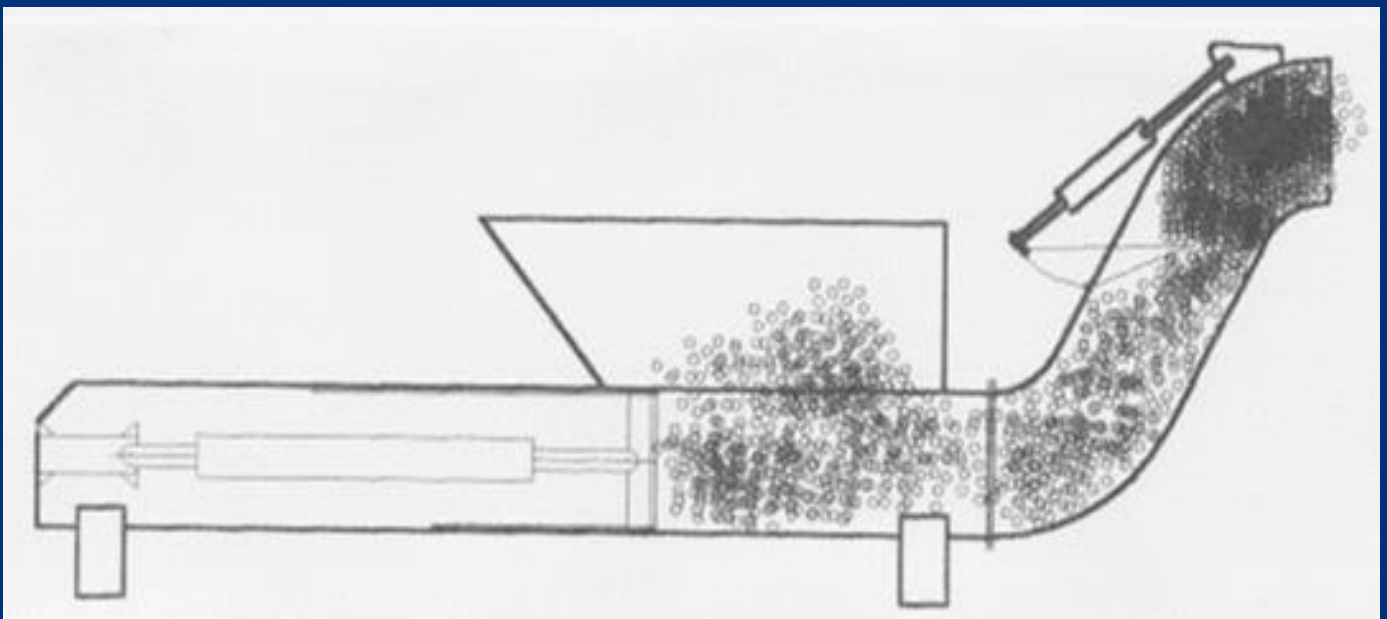

## Technical Data and Measurements

Ram Face Pressure	160 PSI	Motor	11 Kw (15 HP)
Cycle Time (Seconds)	36	Controls	24 Volt
Cylinder Bore	178 mm (7")		

Electrical Supply Requirements	32A 415V 3-phase with neutral and earth. Protection via Type "D" circuit breaker or Motor rated fuses		
--------------------------------	--	--	--

**Dimensions in mm**

Length	4115	Width	915
Height	1759	Charge Box	1040 x 711
